### 2. STUDY ABROAD EXPERIENCES (minimum 500 words)

**\*Please write about your study abroad experiences (academic or cultural) under the “PEACE” Student Exchange Program, including one or two pictures.**

This exchanged program was 5 days in Phnom Penh City, Kingdom of Cambodia. I went there with my three colleague who are Myanmar and Laos students from IDEC, Hiroshima University as well as two professors one staff. The main aim was to present our current research work at National Institute of Education (NIE).

The first day of exchange program was a simple day to prepare the power point slide for presentation at NIE and sightseeing around the hotel that is in center of Phnom Penh. And then, I tried to taste traditional foods with my colleagues.

The second day was started with the courtesy call to JICA Cambodia and the officer explained about the current projects throughout Cambodia.

I visited the attached school in NIE and met with the principal and teachers from that school in the morning. They explained the education system of their school and visited around the school. At the evening, I visited Cambodia Development Resource Institute (CDRI) that is an independent center of research for innovative on Cambodia’s development and met with the director, Dr. Chhem and staffs from CDRI. They explained the current research and collaboration with government and others and gained the experiences and knowledge form that visit. At night, I got a chance to attend the Hiroshima Alumni Gathering Party and met with former senior IDEC students

and some PEACE exchange from various sectors.

Before the last day, I had research presentation at NIE starting from early morning. The participants were former HU students, teachers and students from NIE. Most of the former students are from Education sectors, I gained a lot of suggestions and comments from them for my current research to be more perfect. That was the good experiences for this exchange program. At night, we all had dinner together near NIE.

The last day of the program was free for all participants and had a chance to go sightseeing around Phnom Penh. So, I went Royal Palace and National Museum with my colleagues. That is the great experiences to explore the Cambodian Culture. At night, I flied Myanmar to conduct my research interview.

This PEACE student exchange program gave various experiences and knowledges.

### 3. MESSAGE FOR FUTURE "PEACE" STUDENTS

**\*Please write your message for future PEACE students (\*no minimum or maximum requirement for the number of words).**

Phnom Penh is quiet hot in day time, but a little cool at night.  
It is crowded with the motorbike, be careful.
