2. STUDY ABROAD EXPERIENCES (minimum 500 words)

***Please write about your study abroad experiences (academic or cultural) under the “PEACE” Student Exchange Program, including one or two pictures.**

This exchange program was very first exchange program for me while I was in Hiroshima University. This program was the four-day exchange program in Vientiane, Laos. I went Vientiane together with five colleagues; one student is form Myanmar and four students are from Cambodia as well as two professors form IDEC, Hiroshima University.

Vientiane is the capital city of Laos and it is not too crowded. The host university is the National University of Laos (NUOL) that is one of the five National University form Laos and it is in the sub-urban area of Vientiane.

At the first day of the program, I had a chance to present my current research work with the professors and students from Faculty of Education, National University of Laos (NUOL) and then I gained my weak points of my current work within my presentation. After whole day presentation, we all had dinner together beside the lake with the professors and staffs form Faculty of Education. The professors and staffs from NUOL are very kind and helpful.

At the next day, I had school visit program that were primary school and secondary school attached by NUOL. The principals explained the situations of their schools and I learned about the Laos Education system form that visiting. At the evening of that day, I went the vocational school and met with the principals and teachers from that school. This vocational school was interesting for me because of related with my research. I visited around the school and learned the student'

activities.

I have a chance to visit JICE office and JICA Laos at the last day of the program. The officers from each office explained the current work in Laos. And also, I visited the central market and shopping mall with some former students from Hiroshima University.

I also went some famous sight-seeing place called the Patuxay. That is the war monument in the center of Vientiane. At the last night of program, I had free time to hang out with my friends from Hirodai and went to night market around the Maekong River and tasted the local foods.

This exchange program was a good experience not only for the academically but also for the socially

3. MESSAGE FOR FUTURE "PEACE" STUDENTS

***Please write your message for future PEACE students (*no minimum or maximum requirement for the number of words).**

The weather is a little hot although it is winter time. Please careful the dresses.
Most of the Laos's foods are spicy like Thailand.
