Another trip of visit was from 31<sup>st</sup> May to 5<sup>th</sup> June, 2018 at Luang Prabang and Vientiane, Laos. In Luang Prabang, we spent 3 days for presentation and school’s visit. On our first day, we visited Sopheanavong Univeristy and its Faculty of Education. After school’s visit, we went Kuangsi water fall. The second day, the three of us disseminated our research’s presentations at the faculty of Education of Sopheanavong University. This time, I presented the findings of my research thesis. The questions and comments were more critical as they concerned on how to interpret qualitative research, how to analyze research findings, how to make qualitative research reliable, and how to generalize qualitative research findings. Finally, we finished our presentation by noon, and after presentation, we visited another place was Ou Cave mountain. On day 4<sup>th</sup>, before travelling to Vientiane, we visited Wat Xiangthong where the Prabang stupa was kept. And day 5<sup>th</sup> in Vientiane, we visited Ministry of Education. There, our professor disseminated his presentation to some members of department of management and planning. His topic presentation was how to write research proposal. Finally, we finished our visit and left for airport on that afternoon.

Luang Prabang is known as the old capital city in Laos, the first city where Laos’ country was built. This city is rich of natural resources and safe and sound environment. The visiting sites were wonderful with real nature.

In short, from the seminar's presentation, I gained a lot of experiences in dealing with those questions in front of audiences. I am aware of different questions which might arise from audiences and will be ready for my final presentation. In addition, from my seminar disseminations, I have more experiences in presenting to different contexts, particularly; it builds confidence on my next performance.
